APPENDIX A

Who we share data with and why

We do not share information about our pupils with anyone without consent unless the law and our policies allow us to do so.

We share pupils' data with the Department for Education (DfE) on a statutory basis. This data sharing underpins school funding and educational attainment policy and monitoring.

We are required to share information about our pupils with our local authority (LA) and the Department for Education (DfE) under section 3 of The Education (Information About Individual Pupils) (England) Regulations 2013.

To find out more about the data collection requirements placed on us by the Department for Education (for example; via the school census) go to

<https://www.gov.uk/education/data-collection-and-censuses-for-schools>.

The National Pupil Database (NPD)

The NPD is owned and managed by the Department for Education and contains information about pupils in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the Department. It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

We are required by law, to provide information about our pupils to the DfE as part of statutory data collections such as the school census and early years' census. Some of this information is then stored in the NPD. The law that allows this is the Education (Information About Individual Pupils) (England) Regulations 2013.

To find out more about the NPD, go to:

<https://www.gov.uk/government/publications/national-pupil-database-user-guide-and-supporting-information>.

The department may share information about our pupils from the NPD with third parties who promote the education or well-being of children in England by:

- conducting research or analysis
- producing statistics
- providing information, advice or guidance

The Department has robust processes in place to ensure the confidentiality of our data is maintained and there are stringent controls in place regarding access and use of the data. Decisions on whether DfE releases data to third parties are subject to a strict approval process and based on a detailed assessment of:

- who is requesting the data

- the purpose for which it is required
- the level and sensitivity of data requested: and
- the arrangements in place to store and handle the data

To be granted access to pupil information, organisations must comply with strict terms and conditions covering the confidentiality and handling of the data, security arrangements and retention and use of the data.

For more information about the department's data sharing process, please visit:

Primary Care Trusts (PCTs)

We are required, by law, to pass certain information about our pupils to PCT's.

PCT's use information about pupils for research and statistical purposes, to develop, monitor and evaluate the performance of local health services. These statistics will not identify individual pupils. It is necessary for certain health information about children (for example, such as their height and weight) to be retained for a certain period of time (designated by the Department of Health) and requires these PCTs to maintain children's names and addresses for this purpose. PCTs may also provide individual schools and Local Authorities (LAs) with aggregated health information which will not identify individual children.

Local Authority - education and training

We are required, by law, to pass certain information about our pupils to local authorities.

The LA holds information about young people living in its area, including about their education and training history. This is to support the provision of their education up to the age of 20 (and beyond this age for those with a special education need or disability). Education institutions and other public bodies (including the Department for Education (DfE), police, probation and health services) may pass information to the LA to help them to do this.

The LA shares some of the information it collects with the Department for Education (DfE) to enable them to; produce statistics, assess performance, determine the destinations of young people after they have left school or college and to evaluate Government funded programmes.

The LA may also share information with post-16 education and training providers to secure appropriate support for them. They may also share data with education establishments which shows what their pupils go on to do after the age of 16.

If you want to see a copy of information about you that the LA holds, please contact the

Data Protection Officer: FOI@westsussex.gov.uk

Local Authority – social services

In order to comply with our statutory safeguarding duties we are required, by law, to pass certain information about our pupils to local authorities. Information will only be shared where it is fair and lawful to do so.

If you want to see a copy of information about you that the LA holds, please contact the Data Protection Officer: FOI@westsussex.gov.uk

Police, Fire and Rescue Service, Ambulance Service and other emergency or enforcement agencies

In order to comply with our duty of care to pupils, our statutory safeguarding duties and our obligations in respect of the prevention and detection of crime, we may also share personal data with other statutory and partnership agencies.
